Environmental Policy

Swiftclean (UK) Limited acknowledges that the fire safety, surveying, training, cleaning, remedial, inspection and monitoring (the compliance services) provided to their clients must be carried out within an environmental management system with the overall aim of continual reduction in environmental impacts and continued improvement in environmental performance.

It is our policy to:-

- Minimise waste and consumption of resources (materials, fuel, water, and energy) and ensure that unavoidable waste is, where possible, recycled or disposed of responsibly.
- Foster a sense of responsibility for the environment amongst employees by the provision of information and training.
- Assess, monitor and where possible reduce the impact of our activities on the local and general environment.
- Take account of the environment impact of all raw materials, packaging and processes and wherever possible take steps to minimize this through strategic evaluation and planning.
- Establish and monitor environmental objectives and targets; identify deviations from the stated policy and implement appropriate corrective action.
- Maintain effective systems and working processes to prevent pollution.
- Advise customers and other interested parties where appropriate on the best environmental practices associated with the delivery of our services.
- Ensure that all members of staff and our suppliers / Subcontractors act in accordance with this policy and our environmental Management System.
- Strive to continually improve our environmental performance and prevent pollution.
- Comply with all relevant Environmental Legislation and other requirements that are applicable to our business.
- Review this policy annually

The Directors ensure that this policy is communicated, understood and implemented at all levels in the company, and externally on our company website www.swiftclean.co.uk.

Signed: Dated: 25th September 2025
